

DR PANKAJ SHUKLA

Kanpur, UP 208011 | +91-7275124124 | pankajshukla06494@gmail.com

Professional Summary

With over three decades of dedicated experience in Organic Chemistry, I am Dr. Pankaj Shukla, currently serving as a professor at DBS College, Kanpur since 1991. Throughout my tenure, I have been deeply involved in both academic instruction and cutting-edge research. My expertise lies in the field of organic chemistry, particularly in synthesis, reaction mechanisms, and applications in medicinal chemistry.

My career highlights include numerous impactful contributions to the understanding and application of organic chemistry principles. I have authored several influential publications and actively collaborated with peers and industry professionals to advance scientific knowledge and innovation.

As a committed educator, I take pride in mentoring and guiding aspiring researchers, nurturing their potential to make meaningful contributions to the field. My journey in academia and research continues to be driven by a passion for exploring new frontiers in organic chemistry, aiming to address complex challenges and inspire future generations of scientists.
